

We make our organic wines with
a little help from our friends

HERE IS PART OF THE STELLAR WORKFORCE,
DOING WHAT THEY DO BEST: KEEPING OUR
VINEYARDS FREE FROM MARAUDING SNAILS.

As one of South Africa's leading organic wineries, our wines are produced with the wellbeing of earth and her inhabitants in mind.

No chemicals, pesticides or herbicides are used in the growing of our grapes and many of our wines are SULFITE FREE...

The result is a range of wines that is pure, and delightful on the palate.

Stellar wines are available wherever fine organic wines are sold.
